

Markus 370

Rewinder with turret, Labelshifter and optional 4C overprinting.

Web width up to

370 mm

Speed

300 m/min

Unwind Ø

800 mm

Rental programme

from Silver

Technical data

Max. web width	370 mm
Max. speed	300 m/min
Max. unwind Ø	800 mm
Max. rewind Ø	450 mm

Application and equipment

Business area	Converting
Machine type	Platform / frame, Standalone
Web width classes	120 mm (Desktop), 220 mm (Compact), 330 mm (Standard), 350–370 mm (Extended)
Applications	Overprinting, Inspection / QA, Finishing, Rewinding / slitting
Cutting methods	Autoslitter (software-controlled), Crush knives, Razor blades, Shear cut (manual)
Options	Autoslitter, Inkjet overprinting system, Labelshifter, Missing Label Detection
Industries	Chemicals, Food & Beverage, Industrial / automotive, Cosmetics / beauty, Logistics / supply chain, Pharma / healthcare, Retail / fashion

Description

One platform with many options.

The Markus 370 is far more than an ordinary rewinder. With web speeds of up to 300 m/min and an integrated semi-turret as standard, it guarantees high productivity and performance. Speed, however, is not the main feature of this machine.

The web can be transported in both directions. An ultrasonic web edge guide ensures exact guiding of the material web, from the infeed to the cutting unit and on to the rewinders. Slitting is done either by shear cut or with razor blades. Automatic slitters are also available as an option. This allows a wide variety of materials to be processed reliably and cleanly. Piece and metre counters complete the equipment and stop the machine after exactly the right quantity.

The Markus 370 is a multifunctional platform for a wide range of different applications. In addition to various slitting options, a Labelshifter or our Missing Label Detection, it can also serve as the basis for inkjet overprinting systems.

Highlights of the Markus 370:

- simple, intuitive set-up and operation
- compact design
- Web speeds up to 300 m/min
- Material transport in both directions
- versatile platform for different applications
- 2 separate rewinders as standard
- Semi-turret as standard

Recommended extensions

- Missing Label Detection
- PrintsPaul LED UV lamp
- Heinrich flexo printing
- Heinrich die-cutting unit
- Heinrich rewind
- Heinrich unwind
- Heinrich hot foil stamping
- Heinrich screen printing unit
- Inkjet module
- 5-STAR printing system

RENT-TEST-BUY @PAUL

Rent the machine, produce under real conditions and decide afterwards. If you buy, part of the rent is credited.
