Description

The Rudolf 350 is the PrintsPaul sheeter. It can run both inline, directly behind a machine, and stand-alone from the roll without extra effort. The section length is entered conveniently on the control panel. A mark reader ensures an exact cut at the required point. The integrated counter stops the machine automatically after the preset quantity. Operation is via a 7-inch HMI display in your preferred language.

Highlights of the Rudolf 350:

- simple, intuitive set-up and operation
- precise cutting thanks to mark control
- Slitting optional
- compact design
- movable on castors
- only a 220-volt connection required

RENT-TEST-BUY @PAUL

Rent the machine, produce under real conditions and decide afterwards. If you buy, part of the rent is credited.
